PROFESSIONAL EXPERIENCE

Frontend Developer | 2025
Dinas Komunikasi dan Informatika Karanganyar

- Developed and maintained the frontend interface of a web-based online cashier system using modern web technologies.
- Collaborated with backend developers and UI/UX designers to create responsive, user-friendly pages that align with government service standards.
- Contributed to optimizing web performance and ensuring cross-browser compatibility to enhance user experience.

Fullstack Developer | 2024–2025
Freelancer

- Designed and developed dynamic web applications using both frontend (Html., Vue.js, React) and backend (Mysql, Node.js, Postgree, MongoDB) technologies to meet client-specific needs.
- Implemented authentication systems, RESTful APIs, and responsive UI/UX to ensure seamless and secure user interaction.
- Supported the creation of detailed project reports and documentation for senior stakeholders
